

RHAPSODY

BOHEMIAN SOUR LAGER

In this beer Freddy Mercury was an inspiration with his song Bohemian Rhapsody, born to have a Rhapsodic character, that is free and varied. This Bohemian Sour Lager produced in the cellars of Bellinzona does not meet wood, but only steel and a second fermentation given by the wild yeasts that populate the cellars make its organoleptic context not very schematic, with very different aromatic and gustatory cues that make this poetic beer full of points of reflection.

Allergens: barley
